

# Welcome to HelloVideo

Please refer to the quick start videos to learn how to setup the script.

Read on below on how to upgrade and how to get bonus content and new releases

To update to the latest version, perform the following:

1. Unzip the hellovideo.zip and replace your old 'application' folder with the new 'application' folder
2. Visit [yoursite.com/upgrade](http://yoursite.com/upgrade) to add any new possible database rows

And that's it, you'll be updated to the latest version.

To gain access to bonus content and new releases:

1. Visit <http://hellovideoapp.com/register>
2. Sign up for a new account using your purchase code (this can be downloaded from your envato downloads page)
3. Access HelloVideo portal to get support and the latest downloads

Thanks again for the purchase and if you haven't already given us a rating please do so. The more positive ratings we receive the more revenue and time we will get to continue developing new plugins and themes :)
